Eval Comments: “The behaviors described today reflect the dog’s responses in an Animal Care Center environment and during assessment. A dog's behavior in an Animal Care Center may differ significantly from how they behave in a home. Stress, confinement, and unfamiliar surroundings can cause dogs to act out—or suppress behaviors that may emerge later. A dog's behavior may change based on surroundings, training, medical, socialization, and life experiences.”

Easy to leash, no pull to the yard. At the gate he wasn't very interested. Once in the yard he stuck with the handler initially and then began to explore. Tolerant of dogs approaching and trying to solicit play. Mingled/shared the yard. No play observed. Was more loose in body language with females. Still learning dog social skills.

Ok for public, Calm Dogs Rec
